art. no. 400200

Documentholders

Documentholder II and III are highly advanced inline metal document-holders. The inline construction makes an ergonomic correct positioning of the actual documents between the keyboard and screen. This is to avoid twisting of the neck and shoulder muscles when working with documentation. The unique ruler function with expanding possibilities makes work even easier.

The construction is of heavy duty steel and painted with "matte" silver finish to avoid reflections.

Technical features:

- › Three preset angles plus infinite settings.
- › Made of high grade, coated sheet metal.
- › Powder coated in matte aluminium colour to avoid reflections.
- › An adjustable aluminium strip for rule guide, with magnifying ruler function built in.
- › Heavy duty enough to accommodate non-reference books.
- › Rubber coated surface to prevent paper from slipping off.
- › Height 250 mm.
- › Width 375 mm.

Sun-Flex™ is a corporation with focus on developing, manufacturing and distribution of products for the modern office workplace. With over 20 years experience and understanding of the modern office workplace, Sun-Flex™ has gained a respected leadership position in the industry. Sun-Flex™ has a strong international presence and is well represented in Asia, Europe and North America through a refined network of distributors and dealers.
