

Ergostretch Footrest

art. no. 455001

Ergostretch Footrest

The footrest of Sun-Flex™ has a unique patent pending design that makes the footrest stand out as one of the most innovative on the market. The footrest is made of high grade material such as powder coated steel tubes in combination with extremely durable ABS material.

While using the adjustability of the actual footplate in both height and angle you get smart exercise for the lower extremities to prevent thrombosis and increase blood circulation. Also use the unique possibility to stretch your legs while still maintaining good posture due to the upper padded support.

Technical features:

- ▶ Made in construction according to the EC Directives.
- ▶ Height adjustable in three different settings.
- ▶ Intuitive tilt of footplate to activate the lower leg muscles.
- ▶ Curved in angle to accommodate the office chair and still sit close to the desk.
- ▶ Upper soft padding so as "stretching out" is easily done.
- ▶ Prevent thrombosis and so called "office feet".
- ▶ ABS plastic, heavy duty powder coated steel tubing and foam padding with leather.

Sun-Flex™ is a corporation with focus on developing, manufacturing and distribution of products for the modern office workplace. With over 20 years experience and understanding of the modern office workplace, Sun-Flex™ has gained a respected leadership position in the industry. Sun-Flex™ has a strong international presence and is well represented in Asia, Europe and North America through a refined network of distributors and dealers.
