

# INZONE™ Documentholder III

## INZONE™ Documentholder III

INZONE™ Documentholder III is a highly advanced inline metal documentholder. The inline construction makes an ergonomic correct positioning of the actual documents between the keyboard and the screen. This is to avoid tiring twists of the neck and should muscles when working with documentation. The unique and appreciated ruler function with expanding possibilities makes work with many documents even easier. The ruler also has a magnifying function.

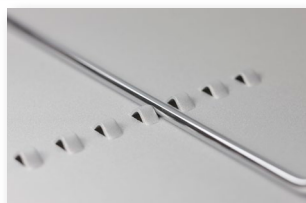

The construction is of heavy duty steel and painted with "matte" powder coating silver finish to avoid reflections.

art. no. 400405

### Technical features:

- › 8 preset angles.
- › High grade, powder coated sheet metal.
- › Matte silver finish to avoid reflections.
- › Adjustable and expandable aluminum strip for rule guide.
- › Adjustable ruler with built in magnifying function.
