

# INZONE™ Notebookstand

## INZONE™ notebookstand

The unique features of the INZONE™ Notebookstand from Sun-Flex™ makes the work with notebook or laptop a true pleasure. The INZONE™ Notebookstand is designed to accommodate any notebook or laptop and position them in any position preferred. Due to its curved design the heat accumulation is decreased to a minimum.

The product has an infinite adjustment of height and angle so that the notebook or laptop always comes in the preferred placement for the user and the angle of the screen can be adjusted accordingly. The built-in 4 port USB 2.0 hub frees up space in the USB ports of the computer and also makes it easier for the user.

The built-in copyholder places documents right in front of the user, between the keyboard and the screen so as to avoid unnecessary movements of the neck thus preventing RSI (Repetitive Stress Injuries).

The INZONE™ Notebookstand from Sun-Flex™ is best accompanied with the INZONE™ keyboard.
