

OFFICELITE™ LED lighting

OFFICELITE™ LED

This creatively designed OFFICELITE™ LED task lamp functions by indirect projecting laterally to the patent guide-light-plate with 36 units of 0,5 LED in order to shed glare free lighting to any workstation. Problems with overlapping lights and shadows while using multiple LED lights can therefore be avoided and you would bask in an even luminescence soft light that it emits. With aluminium alloy casting lampshade, the talented designed product is not only perfectly proportionally balanced but also equipped with an effective cool running operation. Simple and up to date designed base offers easily power cord arrangement. The elegant and smooth integrated design featuring advanced technology excellence and utmost simplicity.

The product is of aluminium alloy material with positive pole surface treatment creating a delicate touch of superior quality. Recyclable material, could be reused after recirculation processing. The long life span is consistence with the spirit of green design.
