

PRODUCT INFORMATION

INLITE™ is a state-of-the-art range of LED lighting for the modern office workplace. The INLITE™ is utilizing the latest Samsung LED technology and thus giving options to both control strength of light as well as the color of light. You can simply adjust the INLITE™ to your own personal settings. The preferred settings of the dimmer are bedtime mode (2500-3000K), relaxation mode (2500-3300k), reading mode (4300-5300K), & study mode (6000K-7000K). Due to the contrast enhancing daylight quality of the light it provides superb color rendering. A built in diffuser prevents glare from the light emitted.

Easily accessible touch controls on the base with a modern display make usage very simple and understandable. The INLITE™ range exists in both non-docking and docking versions. The docking versions are a great support for mobile phone users, the phone simply docks in and is always charged, easy storage and is always in place.
