

PRODUCT INFORMATION

SUN-FLEX® EASYDESK PRO is a desk that is ideally suited for the office, home office, school and activity-based workplaces. The design focuses on the multi-user.

The materials are carefully selected to provide solid stability and function.

The desk is manually height-adjustable with gas spring, thus completely without crank or power cord. You can easily vary between standing work and sitting.

The four casters on the rack roll smoothly, and two are individually lockable at the touch of a button.

The unique construction of the desk top makes it possible to angle the desk.

Use the desk as drawing board, relief table, bookcase, music stand or as a podium for lectures and in the classroom as portable catheters.
