

PRODUCT INFORMATION

SUN-FLEX®Relax is the perfect choice for anyone looking to improve their work environment and experience increased comfort during long work sessions. With its design and high quality, this footrest is an investment in your health and well-being.

With a simple knob adjustment on the SUN-FLEX®Relax, you can control how resistant or easy it is to tilt the footplate with your foot. It is also possible to adjust the height of the footplate in two positions. These adjustments allow you to find the perfect position to promote good posture and reduce the risk of strain injuries.

To further increase your comfort and well-being, SUN-FLEX®Relax also features an upper support. This support provides extra relief for your legs and allows you to stretch your legs without compromising your posture.

Thanks to a robust and solid metal construction, this footrest can withstand heavy loads, up to 75 kg.

Give your body the support it deserves and invest in a SUN-FLEX®Relax footrest for a more comfortable and productive workday!
