

PRODUCT INFORMATION

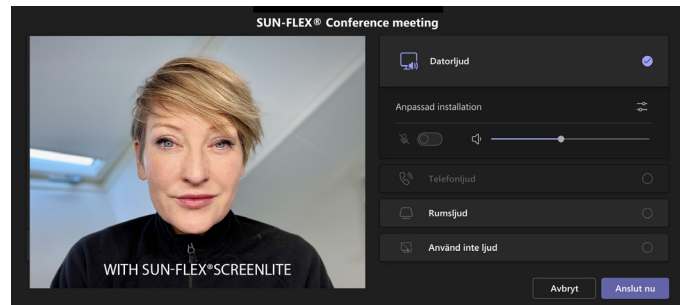

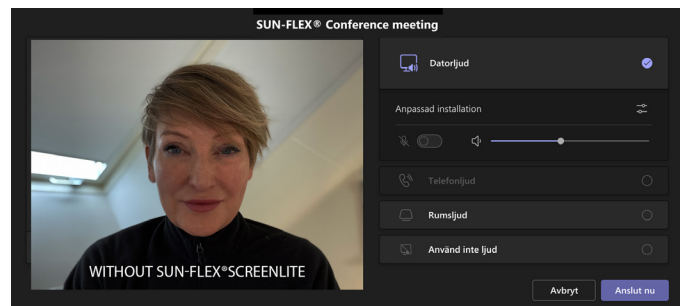

SUN-FLEX®SCREENLITE™ is an extremely space-saving, stylish and multifunctional lighting solution that suits desks of all kinds. Irrespective of whether you are working in a conventional office, a hybrid workplace or a home office SUN-FLEX®SCREENLITE is the ideal choice.

It is quick and easy to select the right light intensity and color thanks to the smart, easily accessible touch controls. If you activate the ambient light sensor, SUN-FLEX®SCREENLITE™ will automatically adjust the light intensity to match the surroundings – which means perfect lighting without you having to configure the settings manually.

The adjustable arm with its long reach makes the light fitting perfect for both large and small desks, and for use with one or more monitors. Thanks to the long life light sources made possible by LED technology, SUN-FLEX®SCREENLITE™ provides a broad pool of light over a large surface, creating conditions for an excellent ergonomic workspace.

DIGITAL MEETINGS

If your work involves digital meetings, it is easy to use SUN-FLEX®SCREENLITE™ as a light amplifier by changing the angle of the long light source. This will increase both clarity and contrast, ensuring improved quality in the meeting.

Smart lighting, SUN-FLEX®SCREENLITE™
