

PRODUCT INFORMATION

SUN-FLEX®EASYDESK PRO is a desk that is ideally suited for the office, home office, school and activity-based workplaces. The design focuses on the multi-user.

The materials are carefully selected to provide solid stability and function.

The desk is manually height-adjustable (78-108 cm.) with gas spring, thus completely without crank or power cord. You can easily vary between standing work and sitting.

The four wheels on the rack roll smoothly, and are individually lockable by a light push of a button.

The unique construction of the desk top makes it possible to angle the desk (0-90 °).

With the adjustable desk top, you fold together SUN-FLEX® EASYDESK PRO for easy storage.

Use the desk as drawing board, relief table, bookcase, music stand or as a podium for lectures and in the classroom as portable catheters.
