

PRODUCT INFORMATION

The SUN-FLEX® SwingStand™ is an active support for both standing and sitting.

Standing during certain periods of the working day is a natural part of most people's working lives, and an active standing position actually stimulates well-being and improved health. Being in motion boosts the blood flow, improves oxygen intake and helps concentration.

The unique design of the SUN-FLEX® SwingStand™ automatically stimulates activity in both standing and sitting postures. Swinging and moving the feet on the neatly balanced, mobile bracket generates dynamism that is otherwise difficult to achieve.

The SUN-FLEX® SwingStand™ is a high-quality product featuring well-thought-out functions, and the ball bearing-mounted swing/bracket ensures high durability.
