

## We are on pCon.planner!

pCon.planner is an advanced tool for 3D space planning and interior design. With this software, users can create detailed and realistic room layouts, furnish spaces, and visualize interior solutions in 3D. And now, with SUN-FLEX products integrated into the platform, you have access to our innovative ergonomic solutions to enhance your workspace design!

pCon.planner is particularly popular among architects, interior designers, and planners due to its powerful features and flexibility.
